John Eitnik Buried at Weston-The body John Zitnik, the Union Pacific track walker, who was killed in the yards Saturday, was taken to Weston, Tuesday noon for interment. The family formerly lived there and now resides at 1427 South Fourteenth street

Says She Didn't Make Him Wed Her-Eleanor Griffin Krafft, in an answer filed in district court, denies that any force or threat was used to compel Henry Krafft to marry her, as alleged by him in a petition for divorce now on the record. She therefore prays that his petition be dis-

Bonds Are Rejected-Frank Sampson, John Reeves, A Myers and Jake Lieb, who gave the name of John Smith, who were fined in police court last Wednesday on the charge of being inmates of a disorderly house, filed appeal bonds in police court Tuesday morning. Only one, that of Reeves, was accepted, the others being refused on account of the fact that the bondsmen were not known. The men were arrested at the Murray hotel when caught in an alleged poker game,

BOY WANTS TO FIND BULLET Satisfies Curiosity as to Revolver and Now Searches for Shot in Leg.

Sam Melchar, a 16-year-old boy living at Fourth and Center streets, has satisfied his curiosity as to firearms. The thing he is interested in now is the location of the 44-calibre revolver bullet that entered the fleshy part of his right hip Tuesday morning while he and Claude Shaylor, 12 years of age, were examining young Shaylor's brother's revolver.

Melchar is now at the General hospital and his condition is not considered serious, the bullet having lodged somewhere in the flesh after having coursed through the right hip. The police patrol removed the lad to the hospital, where he was attended by Police Surgeon Barbour. It is thought he will not suffer greatly from the acci-

The Shaylor boy lives at 1906 South Fourth street. He says he and his comrade knew the gun was loaded, but wanted to see how it worked. The weapon was in his hands when it went off.

C. & S. OFFICERS WILL STAY President Trumbull Quits, but Holdrege Says No Other Changes Will Be Made.

George W. Holdrege, general manager of the Burlington, has returned from a trip over the lines of the Colorado & Southern railroad, which he took in company with George A. Harris, president of the Burlington, and Vice Presidents Willard and Miller and with the officers of the Colo-

"The plan is to continue the Denver of ficers of the new road just as they are and to keep the offices in Denver as they are," said Mr. Holdrege. "I took the trip with the officers as a sort of a vacation and also in consulting capacity. The work seems to be in good hands and it was decided to make no change.

Southern, who lives in New York, will resign at a meeting of the directors which is soon to be held. Mr. Harris is to be president of the new line as well as the Burlington.

BOOST FOR A UNIVERSITY

Public Spirited Citizens Endorse Plans for Seat of Learning.

WHAT IS WANTED FROM OMAHA

given by J. D. Rockefeller, provided Omaha would give \$200,000. It was also stated that \$28,000 of this money had already been given, \$6,000 of it having been given by one donor who was present, but whose name was not given.

General C. F. Manderson was toasificials, high in office, who delighted to act child in the school or visitor be overcome in a most undignified manner.

Where the Press Stands.

Another interesting episode was called forth when General Manderson called upon Victor Rosewater to state what the attitude of the Omaha press would be toward supporting the new university. Mr. Rosewater replied that The Bee always stood ready to support any proposition which was for the good of Omaha but said he could not speak for the press of the other side, which had opposed the acceptance of Rockefeller's tainted money for the Unias a representative of the World-Herald was present he might be permitted to

25,000 was located in Omaha. Great Field in Omaha.

Rev. Edwin Hart Jenks, pastor of the First Presbyterian church, told of the needs of Omaha for just such a university as is days that are to come," said Dr. Jenks. We are proud of our state university, but we want to form ours on a little different plan. A university helps to complete the fabric of a great city. This is not to be lines."

those who are giving large sums to education, "Can it be done? That is the question, and I turn that question right back to you gentlemen. Societies have advertised to help institutions of this kind. The board now has \$43,000,000 and I understand there is more to come. The income of this money is to be given to institutions which will meet the conditions, which vary as the board thinks fit. When that board takes hold of an institution it sticks by it. Andrew Carnegie has also gone into the conditions are right the money will be given to you. It all depends on Omaha. We want \$200,000 from Omaha and we will engage to put up \$300,000. That will not make a university, but it is the first step. That will give us a campus and a liberal arts building and considerable over for a nest egg. I think I know of three people who will give a building aplece."

H. H. Baidrige spoke of the civic side of the project and gave it as his opinion that the great universities should be in the centers of population.

Educator's Viewpoint. Dr. W. M. Davidson, superintendent of the public schools, told of the relation of the secondary schools to a university. He told of the advantages of having different centers of edeucation and said that 40 per cent of the attendance at Harvard came within a radius of 100 miles of Boston and that the same was nearly true of Lincoln, Mr. Davidson advocated the establishment at the start of a school of applied sciences, saying that technical schools are coming to the fore most rap-Omaha's opportunity. He said that only

Coast Country that since this advirtisement was printed he has doubled his puchase

William Jennings Bryan buys a ranch in the GULF COAST COUNTRY He has purchased 80 acres of irrigated land near Mis-

sion, Hidalgo County, Texas, on which he will at once plant orange, fig, olive, pecan, almond trees, etc., and if they "do as well as he expects" he will build a home and spend a portion of his winters there.

Mr. Bryan has long contemplated improving a place in the South, and it is not surprising that his selection should be made in the heart of the Gulf Coast Country, whose climate is almost ideal and whose soil is so wonderfully productive that returns of \$10,000 from 20 acres of onions—such as that made by Mr. Geo. Hoffman of Kingsville, Texas-are of common occurrence.

> Mr. Hoffman's experience was duplicated by many other growers in the Gulf Coast Country. That was two or three years ago. The change which has been wrought in the Gulf Coast Country in the short time since then is marvelous.

Prosperous towns and cities have sprung up - irrigation has been systematized and extended - methods of marketing have been improved. Now large areas of the Gulf Coast Country are dotted with small farms, the owners of which are making fortunes every year.

On a small tract of land in the Gulf Coast Country you should be able to make a good living and lay away a snug sum each year. Experience is not necessary. It is simply "making garden" on a larger scale.

Investigate this proposition while the land is within your reach. Next year it will cost more. A trip of investigation will be inexpensive. Twice each month you can buy round-trip tickets via the Rock Island-Frisco-C. & E. I. Lines to any point in the Gulf Coast Country at the following very low fares:

Wansas City \$25.00 Peoria 30.00 St. Paul \$32.50 Minneapolis \$3.50 These tickets will be good 25 days, and allow liberal stop-over privileges.

If you would like to know more of the big profits growers are making in the Gulf Coast Country, write me today for some very interesting literature we have prepared for free dis-
